ONYO BHUBAN

SOBUJ PATH MUKTO BIDYALAY

Close to Shantiniketan, Bolpur, in a little village called Ramnagar that comes on the way towards Ilambajar, I have built my **Onyo Bhuban** ('the other world'). On 23rd January 2018, in **Onyo Bhuban's** front yard took place the inaugural ceremony of **Sobuj Path Mukto Bidyalay**- a **free** and **non-formal centre of studies** for the **village children**.

The initiative has been taken to impart free primary education to the needy, underprivileged and disadvantaged tribal children of the society, including children from other familial backgrounds between **classes 1 to 5**. At present, we have **45 children** in this educational institute who are being taken care of by **three teachers**. The goal is to make sure that these children receive a good upbringing and a proper elementary education. I earnestly request all my friends, family and well-wishers to kindly extend all the help that you can towards this endeavour of mine.

The **annual expense** of **education** and **daily tiffin** of **a child** is minimum **Rs.1000/-** (approx.) If you are interested and willing to take the annual responsibility of one or more students, then it will greatly aid the children in need of this free and non-formal educational institute. I wish and pray for your benevolent assistance, support and cooperation. I have a dream but that dream can be transformed into reality if you and other sensitive souls like you tender your blessings, good wishes and assistance.

Thank you
